

# Comprehensive Emergency Management Plan

2016

DISTRICT 4 • FLORIDA DEPARTMENT OF TRANSPORTATION

# **FDOT District Four Comprehensive Emergency Management Plan 2016**

## **TABLE OF CONTENTS**

### **EXECUTIVE SUMMARY**

### **CHAPTER 1 – INTRODUCTION**

| <b>SECTION</b> | <b>DESCRIPTION</b>           | <b>PAGE</b> |
|----------------|------------------------------|-------------|
| 1.0            | Purpose                      | 1-1         |
| 1.1            | Glossary                     | 1-1         |
| 1.2            | Methodology                  | 1-4         |
| 1.3            | Plan Organization            | 1-5         |
| 1.4            | Plan Implementation Triggers | 1-6         |

### **CHAPTER 2 – DISTRICT 4 FEATURES**

| <b>SECTION</b> | <b>DESCRIPTION</b>  | <b>PAGE</b> |
|----------------|---|-------------|
| 2.0            | Purpose   | 2-1         |
| 2.1            | District Four Demographics                                  | 2-1         |
| 2.2            | Statewide Mutual Aid Agreement                              | 2-4         |
| 2.3            | Coastal Areas/Storm Surge Maps                              | 2-4         |
|                | Florida Department of Transportation Districts              | 2-5         |
|                | Highway Advisory Radio Transmitter & Weather Info           | 2-6         |
|                | Specifications for 47MHZ Multicast Repeater System          | 2-7         |
|                | Collier County – District 1 Highway Advisory Radio Coverage | 2-8         |
|                | Broward County Storm Surge Map                              | 2-9         |
|                | Palm Beach County Storm Surge Map                           | 2-10        |
|                | Martin County Storm Surge Map                               | 2-11        |
|                | St. Lucie County Storm Surge Map                            | 2-12        |
|                | Indian River County Storm Surge Map                         | 2-13        |
|                | 2015 Clearance Times for Base Scenarios                     | 2-14        |
| 2.4            | Vulnerability   | 2-15        |
| 2.5            | Natural Hazards   | 2-15        |
|                | Vulnerable Flood Locations by County                        | 2-16        |
| 2.6            | Human Caused Hazards  | 2-18        |
|                | Homeland Security Advisory System                           | 2-18        |
| 2.7            | Technological/Biological Hazards                            | 2-20        |
| 2.8            | Tri-Rail Park and Ride Facilities                           | 2-21        |
| 2.9            | Evacuation Routes   | 2-23        |
| 2.10           | Emergency Shelters  | 2-28        |
|                | Evacuation Clearance Times                                  | 2-32        |
